Dybułskiego 36  
Poland

Dear Dr. Sobczyk:

Working in London as a house painter? How terrible that you are not able to push your research full time. And how distressing that your application never went through your university to the National Academy of Sciences which is the place that actually has the money, not the NSF. I hope this is adequately explained to you and your father, xeroxes of which I attach, in case they did not all reach you. We do not have any money ourselves to support you, but we would welcome you most warmly if you can get a fellowship. For that, as I understand it, however, you will have to operate through Poland. I hope you will, and that you will succeed.

It was a great pleasure to see your father again at the Duluth meeting.

Warm good wishes.

Sincerely,

John A. Wheeler  
Ashbel Smith Professor of Physics  
and Center Director
